

PRESCRIPTIVE REBATES PROGRAM

For Michigan Commercial & Industrial Customers

The Prescriptive program makes it easy for Indiana Michigan Power's Michigan customers to complete an energy saving project. This program offers cash rebates paid per unit installed to help offset the cost of the project. View the list of predetermined energy efficient measures and find out what works best for you. With so many options available, you're sure to find energy savings! If you don't see what you're looking for on our Prescriptive list, your project may be eligible for the Custom Incentives program.

Popular Measures:

- Interior/Exterior Lighting
- VFDs
- Cooking Equipment
- Refrigeration
- Occupancy Sensors

Projects must be completed within 90 days of invoice date or before November 10, 2017 to qualify for rebates. Funds are limited and paid on a first come, first served basis.

Eligibility

- Must be a commercial and industrial customer in Indiana Michigan Power's Michigan service territory.
- Projects with an estimated rebate over \$10,000 requires pre-approval before starting any work.

Lighting fixture measures must be a one for one replacement. All lighting fixtures must be ENERGY STAR®, DLC, CEE listed, or approved by Program staff. See application for more details.

To Participate

- Step 1: Review the list of energy efficiency measures.
- Step 2: Purchase and install your energy efficiency equipment.
- Step 3: Submit your application and supporting documentation.

Prescriptive Rebate Cap

- \$50,000 per site and \$100,000 per company per program year – across all programs.

Measure Type	Efficient Equipment	Inefficient Equipment	Participation Units	Rebate
Lighting	LED	CFL	Lamp	\$1
		4 lamp T5HO	Fixture (≥30% wattage reduction)	\$36
		6 lamp T5HO		\$72
	LED lamp	T12 4ft or 8ft lamp	per 4ft of lamp	\$7
		T8 4ft or 8ft lamp		\$5
		T5 4ft		\$9
		T5HO 4ft		\$9
	LED 4ft 1 lamp	T12 4ft 2 lamp	Fixture	\$8
