

Prescriptive Rebates Program

For Michigan Commercial & Industrial Customers

The Prescriptive program makes it easy for Indiana Michigan Power's **Michigan** customers to complete an energy saving project. This program offers cash rebates paid per unit installed to help offset the cost of the project. View the list of predetermined energy efficient measures and find out what works best for you. With so many options available, you're sure to find energy savings! If you don't see what you're looking for on our Prescriptive list, your project may be eligible for the Custom Incentives program.

Popular Measures:

- Interior/Exterior Lighting
- VFDs
- Cooking Equipment
- Refrigeration
- Occupancy Sensors

An AEP Company

Eligibility

- Must be a commercial or industrial customer in Indiana Michigan Power's Michigan service territory.
- Projects with an estimated rebate over \$10,000 require pre-approval before starting any work.

Lighting fixture measures must be a one for one replacement. All lighting fixtures must be ENERGY STAR®, DLC, CEE listed, or approved by Program staff. See application for more details.

To Participate

Step 1: Review the list of energy efficiency measures.

Step 2: Purchase and install your energy efficiency equipment.

Step 3: Submit your application and supporting documentation: W-9, invoice, spec sheet, tax exemption form (if applicable).

*Energy efficiency project(s) that have a signed incentive offer on file from the customer will receive their associated rebates and/or incentives upon completion of the project(s) by the terms of the signed incentive offer at completion but no later than **November 15, 2019**. Funds are limited and paid on a first come, first served basis. **Projects submitted after November 15, 2019 will be subject to the incentive levels associated with the 2020 program.***
